Architectural Technologist

about us

f-BLOK architecture is a Winnipeg-based studio specializing in architecture and interior design. We're a collective of curious minds united by a passion for the built environment, with a focus on place-making that's inclusive, meaningful, and deeply respectful of context.

We're on the lookout for an **Architectural Technologist** to join our team. This role is about making the magic happen behind the scenes: coordinating projects of all scales, from assessments and studies to major renovations and new builds.

You love a well-organized Revit model and a beautifully crafted drawing set (so do we). You know how to integrate design data, map out documentation, and flag coordination issues before they become issues. In short, you help the team run like a well-oiled machine.

You approach drawing sets and details with precision and purpose, always aiming to deliver clear, efficient, and coordinated construction documents. You're reliable, adaptable, collaborative, and committed to quality—both in your own work and in mentoring others.

Perks? We've got those.
All full-time team members enjoy comprehensive benefits, including health and wellness spending accounts. Plus, everyone is eligible to participate in f-BLOK's profit-sharing plan—because great work should be rewarded.

Across the board, we value highly collaborative people - people who work with an open mind, who can deconstruct problems on the fly, who will simultaneously be inventive, iterative, and have the fortitude to see the idea through in an efficient way. Fundamentally, we look for teammates who embody f-BLOK's Core Purpose and Organizational Values and who will push us to grow and be better for it.

f-BLOK recognizes the importance of Indigenous perspectives in shaping inclusive and meaningful spaces. We are committed to reconciliation and to fostering a workplace that values diverse voices and lived experiences. Indigenous candidates are strongly encouraged to apply and to bring their unique perspectives to our team.

how to apply

Interested applicants are encouraged to forward their cover letter, resume, and portfolio, in confidence, to info@f-BLOK.ca prior to the closing date of Dec 15, 2025. Only candidates selected for an interview will be contacted. We thank all applicants for their interest in f-BLOK architecture inc.

Architectural Technologist

FBLOK

about the position

- Act as lead architectural technologist, working as part of a collaborative team of architects, interior designers, technologists, consultants, contractors, and owners.

- Participate in firm-wide planning relative to design technology innovation & implementation.

- Create well-organized and innovative workflows through document/model production, coordination, and output.

- Create clear and crafted architectural details that bring ideas from conception to construction, integrating strong constructibility and durability principals.

- Create, analyze, verify, and manage drawings and BIM content templates, and libraries.

- Update and consolidate BIM model content and perform clash detection throughout projects.

- Produce firm-wide standards for BIM (both design and construction documents); templates, families, and standards documents and details; development of f-BLOK BIM Best Practices documents and training.

- Conduct evaluation of existing building conditions and document building components.

- Communicate with the office and share lessons learned and best practices on a regular basis.

- Mentor team members and up-and-coming technologists and designers.

- Salary Range of $60-75K, to be negotiated.

qualifications

- You have 5+ years experience in an architectural office or similar.

- You have experience in all phases of design and construction and an agility in learning new technologies and strategies.

- You have experience detailing extensive building retrofits and new construction projects.

- You have an advanced understanding and proficiency in the use and management of REVIT.

- You can translate 2D drawings and specifications into a complete BIM model without breaking a sweat.

- You don't just check your work, you double check and welcome the feedback or review of a team member.

- You have experience establishing CAD and BIM design and construction document standards, templates, libraries and details.

- You have an understanding of buildability of designs as well as costs of materials and products.

- You meet deadlines, no questions.

- You are equally able to work alongside a team as you are able to take full ownership of a project from start to finish.

- You have knowledge of the National Building Code and National Energy Code.

- You have a keen understanding and interest in building science and construction methods.

- You are excited about f-BLOK and the role and impact you may be able to have with us.

f-BLOK architecture inc. | 217-1460 Chevrier Blvd. | Winnipeg, MB | f-BLOK.ca | info@f-BLOK.ca | (204) 943-5087

Our Core Purpose

f-BLOK was founded with the ambition of improving the practice architecture, by:

1. Advocating for collaborative construction contracts that build trust and create respectful relationships.

2. Building partnerships —beyond f-BLOK—bringing outside perspective our work, collectively working to create positive change in the world.

3. Designing a sustainable and successful firm that is a platform for both personal and corporate growth.

Organizational Values

Our organizational values were generated by our team in 2021. They are intentionally spoken in the first person. We hold each other accountable to these values (stated below), and when needed, remind each other of these commitments.

I ask questions to learn and listen to understand.

I begin with trust, and provide an unguarded approach.

I uncover purpose, and forge intentional solutions.

I value input and advocate for differing perspectives.

I adapt my role for the success of the team.

I take initiative, and work through challenges.
